*Using fewer vendors for trash collection in our neighborhood offers a number of positive benefits. Fewer trucks on our roads each week means less traffic, making our streets quieter and safer for kids, walkers, bikers, and pets. It means less wear-and-tear on our roads, requiring repair and replacement less often. And it means fewer chances for wind, weather, and foraging animals to spread unsecured trash in the area. All of that is all good for all of us who live here.*
